**B1G Corporation**

**HRIS Activity Module – Process Flow & System Requirements**

The **Activity Module** allows HR to communicate with employees and collect feedback through the HRIS.

This module contains **three sub-tabs**:

1. Employee Survey
2. Announcements
3. Policy Updates

These features improve **employee communication, engagement, and compliance awareness**.

### 1. Activity Module Structure

| Sub Tab | Purpose |
|---|---|
| **Employee Survey** | Collect feedback and data from employees |
| **Announcements** | Broadcast important company updates |
| **Policy** | Publish new company policies or policy updates |

### 2. Employee Survey

The **Employee Survey** feature allows HR to create surveys to gather information from employees.

Common uses:

- Employee engagement surveys
- Feedback collection
- HR data gathering
- Workplace assessments
- Training feedback

**Survey Creation Fields**

HR should be able to create surveys with the following fields:

| Field | Description |
|---|---|
| **Survey Title** | Name of the survey |
| **Survey Description** | Brief explanation of the survey |
| **Questions** | List of questions |
| **Answer Type** | Multiple Choice / Rating / Text |

| | |
|---|---|
| **Start Date** | Date survey becomes available |
| **End Date** | Deadline for responses |
| **Target Employees** | All employees or selected group |

**Survey System Process Flow**

START
|
HR creates Survey
|
System publishes survey
|
Employees receive notification
|
Employee opens HRIS
|
Employee answers survey
|
System saves responses
|
HR views results
|
END

**Survey System Features**

Recommended features:

- Anonymous survey option
- Response analytics dashboard
- Export survey results
- Survey reminders

**3. Announcements**

The **Announcements** section allows HR to publish company announcements.

These announcements will **automatically pop up when employees log in to the HRIS**.

Employees must click **"I Understand"** to close the announcement.

**Announcement Creation Fields**

| Field | Description |
|---|---|
| **Announcement Title** | Title of announcement |
| **Announcement Message** | Main content |
| **Publish Date** | When announcement becomes visible |
| **Expiration Date** | Optional end date |
| **Attachment** | Optional file |
| **Target Audience** | All employees or selected group |

**Announcement System Flow**

START
|
HR creates Announcement
|
System publishes announcement
|
Employee logs in to HRIS
|
Announcement pop-up appears
|
Employee clicks "I Understand"
|
System records acknowledgement
|
END

**Announcement System Logic**

| Condition | System Action |
|---|---|
| **Announcement created** | Publish in HRIS |
| **Employee logs in** | Display pop-up |
| **Employee clicks acknowledge** | Close pop-up |
| **Announcement expired** | Stop displaying |

**4. Policy Updates**

The **Policy tab** works similarly to Announcements but focuses specifically on **company policies**.

Examples:

- New HR policies
- Updated company rules
- Compliance requirements
- Code of conduct updates

Policy announcements should also require employees to **acknowledge reading the policy**.

**Policy Creation Fields**

| Field | Description |
|---|---|
| **Policy Title** | Policy name |
| **Policy Description** | Policy details |
| **Effective Date** | Policy implementation date |
| **Attachment** | Policy document |
| **Target Employees** | All employees or selected group |

**Policy Acknowledgement Process Flow**

START
|
HR publishes Policy
|
System displays policy to employees
|
Employee logs in to HRIS
|
Policy pop-up appears
|
Employee clicks "I Acknowledge"
|
System records acknowledgement
|
END

**5. Activity Module System Logic Table**

| Condition | System Action |
|---|---|
| **HR creates survey** | Publish to employees |
| **Employee submits survey** | Save response |
| **HR creates announcement** | Display pop-up on login |
| **Employee clicks acknowledge** | Record acknowledgement |
| **HR publishes policy** | Display policy notification |

| | |
|---|---|
| **Employee acknowledges policy** | Record acknowledgement |

## 6. Activity Module Required Roles

| Role | Permission |
|---|---|
| **HR Admin** | Create survey, announcement, policy |
| **Manager** | View announcements |
| **Employee** | Answer surveys, view announcements, acknowledge policies |

## 7. Recommended System Features

### Activity Dashboard

Employees can view:

- Active surveys
- Latest announcements
- New policies

### Notification System

Send notifications through:

- HRIS alerts
- Email

### Acknowledgement Tracking

HR should be able to see:

- Who viewed announcement
- Who acknowledged policy
- Who completed survey

### Recommended System Fields

| Field | Required |
|---|---|
| **Title** | ☐ |
| **Content** | ☐ |
| **Target Audience** | ☐ |
| **Publish Date** | ☐ |
| **Attachment** | Optional |
